

If this is the only kind of Web on your holiday park, maybe you need to talk to us

The holiday home market is changing, don't get left behind.....

The 21st century means Wireless/WiFi connections are everywhere from banks, airports and train stations to coffee shops. Three out of every five people who own a computer now have a laptop for businesses or personal use, even their children have them! So why not stay ahead of the game by supplementing your profits and enhancing the customer experience at your holiday park, touring park or campsite by helping to keep your customers connected while they are staying.

Park & Marine offer a full-service, cost-effective solution

- Free quotation, site survey and assessment of your needs
- Supply - of all necessary components
- Installation - our team of qualified engineers provide a rapid set up with no disruption to your business
- Maintenance & Support - we provide a reliable ongoing service

A cost that suits both you and your business

We can show you how having Wireless Internet Connectivity on your park can really help to increase your revenue while providing customer satisfaction and loyalty. We can also help you to cut the cost of your on-site security, by installing security cameras, barrier systems and access control all through the use of Wireless networks. Using this cutting edge technology for your park, we can provide a profitable environment for you and a safe home from home environment for your customers.

"We would recommend the Park & Marine WiFi solution for any park looking to deliver this type of service to their customers"
Garry Barr - Business Systems Director - The Camping & Caravanning Club

To find out more about how a wireless network at your park can help you expand your business and your profits and to get a FREE quotation, call us now on 0845 020 4401 or visit us at www.parkandmarine.com
